Members of City Council,

I am the owner of 374 Trent Lane. I recently expanded my driveway to 34 feet in order to fully accommodate my third garage door, replace a broken curb that was damaged by the city snowplow and for safety reasons due to the park located across the street from my residence.

I spoke with the Mayor when an inspector came to my home following a complaint. I explained to him that the third garage driveway (my garage stalls are separated into three separated doors) is not long enough for my extended bed pickup truck to safely back out without concerns of hitting a child or car given the location of my property and the busyness of the park. I have attached a picture showing this that was taken a few days ago after the complaint. Please take into consideration that this is a less busy time because the weather is colder. It is much worse in the summer with soccer tournaments and children enjoying the park all day.

There was also some concern that I took out a sidewalk, which was on the original report, but that is not the case because all of our residences in my area have no sidewalks.

I am not asking for any compensation for fixing the broken curb. My goal has always been to keep my property neat and manicured and make improvements when needed. I feel that going from a hard surface to a cement driveway adds to the look of my residence as well as the neighborhood, which is important because my residence is visible from the entrance of the subdivision and Orth road.

Thank you in advance for your time and consideration.

Sincerely,
Michael Maggio
